Speeding issues and the presence of HGVs within villages in the Valley beat policing area continues to be an issue highlighted to us. As such several enforcement operations have already taken place with a number of drivers being issued with traffic offence reports and others being given verbal advice. There are still a few sites left to be visited where an issue with speed has been identified.

Leicestershire police have just launched our Forcewide “Darker Nights” campaign to coincide with the change in the clocks. We have a new ‘Darker nights’ section on the website which you can direct members of the public to, www.leics.police.uk/darkernights - on this section you will find relevant crime prevention advice.

We will be doing regular social media posts for the force twitter and facebook accounts using **#lockuplightup** – please feel free to retweet/share or to use your own messages on social media, but remember to link them to www.leics.police.uk/darkernights and/or use **#lockuplightup**.

Your Safer Neighbourhood Team will be holding their next community engagement event at 11am on 20/11/16 in Main Street, Osgathorpe. We will be near to the beat vehicle available in the street to speak to should any residents have concerns or just want to say hello.

The Valley Safer Neighbourhood Team consists of the following members:-

PS 2172 Dave Wadsworth
PC 1760 Jason Underwood
PC 4118 Louise Gravenall
PCSO 6178 Nicola Stanhope
